Customer Information: Packaging and Packaging Waste Regulation (PPWR)

Dear Business Partner,

Thank you for your inquiry regarding the Packaging and Packaging Waste Regulation (PPWR).

We understand that the upcoming implementation of the PPWR has led to questions regarding packaging compliance and related documentation.

First and foremost, we would like to reassure you that KANSAI HELIOS is fully aware of the PPWR requirements and is actively managing the necessary compliance activities. For our customers, there is generally no need for any immediate action.

Under the PPWR, responsibility for maintaining technical documentation and the EU Declaration of Conformity rests with the party defined as the manufacturer. For products placed on the market by KANSAI HELIOS, we consider ourselves responsible for the applicable manufacturer obligations under PPWR.

We work closely with our packaging suppliers to obtain and assess the information and supporting documentation necessary to fulfil these obligations. Packaging suppliers continue to play an important role in the compliance process by providing the information and supporting evidence required to support compliance assessments. KANSAI HELIOS is actively implementing measures to support compliance with applicable PPWR requirements and continues to develop and refine related processes in line with evolving regulatory guidance and implementation timelines.

Under PPWR, technical documentation and the Declaration of Conformity are maintained as part of the compliance framework and are made available to competent authorities upon request.

As the first PPWR obligations become applicable on 12 August 2026, packaging manufacturers, packaging suppliers and companies placing packaged products on the market are all working towards the same regulatory deadline. Consequently, certain supporting documentation is still being finalized, collected and assessed throughout the packaging value chain.

We continue to closely monitor regulatory developments and maintain an active exchange with industry associations, packaging suppliers and other relevant partners to ensure alignment with the latest PPWR requirements and implementation guidance. KANSAI HELIOS remains committed to regulatory compliance, product stewardship and transparent communication with our customers and business partners.

Should any relevant updates become available, we will keep you informed.

Kind regards,
KANSAI HELIOS Executive Committee
