

BIOHEL

Natural vegetable oils BIOHEL are an excellent solution for environmentally-friendly impregnation of wood, as these oil impregnations are completely bio-degradable. You can choose between ten different natural oils based on their purpose of use. Wood protection with natural oils emphasize the natural color and beauty of wood; they give wood an additional aesthetic value and warmth. BIOHEL oils penetrate deeply into the wood structure and do not seal the timber, but let it breathe.

Part of **KANSAI PAINT**

LINSEED OIL

100% linseed oil

- ✓ Protection of wood and stone products
- ✓ Protects the substrate in a natural and environmentally friendly way
- ✓ Not weather-resistant
- ✓ Dries slowly
- ✓ Application by spreading/wiping (cloth)

DECKING OIL

For terraces and other walking surfaces

- ✓ Crack filling and good adhesion
- ✓ Protection against weathering and UV rays
- ✓ 12 shades according to the BIO MIX colour card
- ✓ Application by brush or roller

BIO IMPREGNOL TS 11

Easy maintenance of the cutting boards

- ✓ Mineral and vegetable oil blend for stronger protection
- ✓ Excellent for cutting boards and kitchen worktops
- ✓ Water repellent and odourless
- ✓ Application by spreading/wiping (cloth) or dipping

TERRACE OIL

For terraces and other walking surfaces

- ✓ Crack filling and good adhesion
- ✓ Weather and UV protection
- ✓ 12 shades according to the BIO MIX colour card
- ✓ Application by spreading/wiping (cloth). Mandatory removal of excess oil

BIOHEL

Natural
vegetable oils

PROFESSIONAL
QUALITY

TUNG OIL

The most resistant of all natural oils

- ✓ Protection of wooden products such as dining tables and wooden countertops
- ✓ Has a high degree of water resistance if 5-6 layers are applied
- ✓ Silky gloss
- ✓ Dries slowly (but faster than linseed oil)
- ✓ Application by spreading/wiping (cloth)

TEAK OIL

The best choice for protecting garden furniture

- ✓ Vegetable oil blend with added solvents for better penetration
- ✓ Pleasant smell
- ✓ Water repellent
- ✓ For more lasting protection, we recommend prior biocidal impregnation
- ✓ Application by spreading/wiping (cloth)

PARAFFIN OIL

Pharmaceutical grade oil

- ✓ Protection of cutting boards and woodworking accessories
- ✓ Also for use in winemaking to protect wine against oxidation
- ✓ Excellent for impregnation wood in saunas
- ✓ No colour, odour or taste
- ✓ Application by spreading/wiping (cloth) or dipping

BIO IMPREGNOL RESIST 2C

EN 1935/2004 food contact certificate

Environmentally friendly protection with one application

- ✓ Environmentally friendly, 0% VOC
- ✓ Long lasting
- ✓ For excellent resistance to liquids one application is sufficient
- ✓ 12 shades according to the BIO MIX colour card
- ✓ Two-component oil in a ratio of 3A:1B
- ✓ Application by spreading/wiping (cloth)

PARQUET OIL

EN 71-3 certificate for the safety of children's toys

Paintless oiling and refinishing of wooden surfaces

- ✓ Environmentally friendly protection
- ✓ Resistance to liquid and fast drying
- ✓ Natural matt or satin finish
- ✓ Application by roller

BIO IMPREGNOL WM

EN 71-3 certificate for the safety of children's toys EC 1935/2004 certificate for food contact

The best choice for you and your children

- ✓ Protection of interior wooden furniture, such as wooden cabinets, tables and beds
- ✓ Especially suited for furniture meant for children
- ✓ Pleasant, smooth and waxy feel after application
- ✓ Chemically resistant oil
- ✓ Dries very quickly
- ✓ Application by spreading/wiping (cloth)
